Mid Year Examinations

Last Friday saw 171 students from year 12 and Year 11 sit the General Achievement Test (GAT). This was the last exam for all students in Years 10 -12. The students in all year levels have studied very hard for these exams. The exams ran over one week and I must congratulate all students for their efforts during this week. A special mention to our Year level team leaders and all staff, who have worked hard to prepare our students for the exams.

A reminder to all students that we are now busily moving into Semester 2 work, for the remainder of this term.

Echuca College UK Cricket Tour

When you are reading this newsletter Mr. Hon and I will be jetting off to England with 13 students and parents for 3 weeks. The boys will play 8 matches against schools from around England. Our first fixture is a triangular 20/20 series against Geelong College and Oundle College. We will be travelling through England playing in Kent, Northumberland and Scotland. Whilst in England we will be doing some sightseeing at places such as – Warwick Castle, Stonehenge, London, Bath, Edinburgh Castle, Alton Towers and many other places of interest. The highlight of the trip will be watching the first days play at Lords between England and South Africa.

Rocka Fundraiser

The last day of school this Term is a Casual Dress Day for all students on both Campuses to raise money for the school Rock Eisteddfod this year. The donation will be a gold coin.

Mid Year Reports

Semester 1 reports will be handed out to all students at a tutorial group assemblies on 2.15pm on Friday 20th June 2008.

Farewell Pernelle

Pernelle Vo Dinh our French exchange student has returned to France this week. Pernelle has been an outstanding representative for the Rotary exchange program and I know she has had a wonderful experience in Australia over the last year. I would like to wish Pernelle all the best in the future and thank all host families and students who made Pernelle’s stay here so memorable.

The end of the semester is near. This is considered the busiest time of the Year. Senior students have completed exams, assessments are being finalised and school reports are written. VCE students commence new units of study and teachers prepare for semester two courses.

Mr Eeles

Mr Eeles has been in China for 10 days with a delegation from the Campaspe Shire and other local government areas. The delegation is exploring trade opportunities in the Shang-Li region. Mr Eeles has been exploring opportunities to establish a sister school relationship with a school in China.

Mr Eeles will provide a detailed report in a later edition of the newsletter.

Student Reports

Student reports will be distributed at tutorial group assemblies on the last day of term. This is a wonderful opportunity for parents to have open discussion with their children, an opportunity to celebrate achievement and to reflect on areas for improvement. If students are absent on the last day, they will need to wait until term 3 to collect reports.

Stage 2 Capital Works

Our first meeting has taken place with our builders for stage 2 of works. Melbourne Construction and Coatings Pty Ltd will take possession of the site at the College Drive campus on June 27th in a project that will construct a new science and mathematics wing, library, foods and hospitality wing and an administration upgrade.

This project will take the best part of 12 months to complete and ensure that our students have quality facilities in which to learn.

Beacon Foundation

This week our Year 10 students pledged to remain in education training or employment after they at the annual Beacon Foundation Pledge Day ceremony at the Rich River Golf Club. Importantly a cross section from the business community also pledged to support our young people by providing support for students who require some direction.

Overall approximately 300 Year 10 students from St Joseph’s College and Echuca College attended the day. This is the seventh year of the Beacon Foundation. Earlier this year Echuca-Moama beacon Foundation was recognised with a national award for its schools program at Echuca College and St Joseph’s College and their support of young people.

Funding For Beacon

The Echuca-Moama Beacon Foundation is a non for profit organisation, established to guide schools and students to support students in year 10 to make informed decisions about their future. For seven years the Foundation has relied on the good will of the business community to provide much needed funding to employ an executive officer and to run a range of events for students.

Today the rotary club of Balwyn have announced that their organisation will be donating $10000 towards the Echuca-Moama project and our students. This is fantastic news for us and testimony to the enormous amount of work that our executive officer, Val McGrath has put into promoting Echuca youth across the state.

I would also like to thank Echuca Rotarian, Anne Peace who was the inspiration behind taking our cause to rotary clubs in Melbourne which has now netted $16000 for Echuca-Moama.
MIDDLE YEARS

YEAR 9 NEWS

Student absence and attendance

It is important that we work together and be proactive in an effort to have students attend school as regularly as possible. One important question employers ask us when students are applying for a job is, “Do they attend school regularly?” They want to know if the student they are enquiring about is reliable. If students are going to be away it would be great if parents/guardians could let the school know. You just need to ring the office and they will pass the information on to the relevant staff. Your assistance with this would be appreciated.

Save a Mate (SAM)

On Friday 6th June, half of the Year 9 students were involved in a workshop run by the Australian Red Cross. The program provides students with information and strategies about what to do at parties and other activities where drugs and alcohol might be around. The next workshop will take place on 20th June for the other half of Year 9. Parents & guardians are encouraged to talk to their child about the program.

Semester Two Subjects

Year 9 students will be starting new subjects at the beginning of Term 3. Their current Maths/numeracy and English teachers will stay the same but they will begin four new units. It is important students are well prepared for their new classes and have the required equipment and books.

Paul Challis, Rhoana Balnaves & Chris Jennings

LATER YEARS

‘Twelve Titbits’

A very long term draws to a close, 
A well earned break from this questionable prose, 
Unit 3 exams, SACs and the GAT are all complete, 
Time for only a short break, because for Unit 4 results you must now compete!!

The climax of last week was the front page stardom of our very own media personalities Chelsea and Jess’. It brought to a fitting conclusion the efforts of our hard-working students in their Unit 3 Studies.

The Year 12s (and some of our Year 11s) persevered through 3 hours of the General Achievement Test last Friday. It is a test of general knowledge and skills in: written communication; mathematics, science and technology; humanities, the arts and social science. Whilst it does not count directly towards their VCE, the GAT results play a very important part in the final assessments. They are used to check that SACs and SATs have been accurately and fairly marked.

There have been important lessons learned from the experiences of the externally assessed exams. The bringing of the correct equipment is one which will be now be more closely heeded by our students. The whole notion of being properly prepared is critical and it was clear that some students had not performed the final check before heading for the exam room. We will be sure to be more meticulous later in the year!

Now, onto Unit 4! Many of our students will have well earned break but must be prepared to work hard during the non-instructional period (school holidays). It is a time to complete those chapter summaries, catch-up with class work missed, continue with revision notes and attempt a few practice exam questions and/or whole exams. Some Year 12 teachers are offering extra sessions for students who are looking for that ‘extra help’. Take advantage of those!!

You should all be in partnership with each other (parents, teachers and students looking at pathway options for 2009. Next term is ‘Open Day’ city and all the tertiary institutions will be marketing hard for their 2009 and beyond enrolments. If you haven’t already, start the researching process now!! So many options!!

You are all in partnership with each other (parents, teachers and students looking at pathway options for 2009. Next term is ‘Open Day’ city and all the tertiary institutions will be marketing hard for their 2009 and beyond enrolments. If you haven’t already, start the researching process now!! So many options!!

Year 12 will be rewarding though the challenge is great, We will work as a team to achieve our goals in this year 2008!

Mr. Stewart Cheal (Team Leader)

ROCK EISTEDDFOD - FULL DAY REHEARSAL

Last day of Term - Friday, June 27th
ALL STUDENTS MUST ATTEND

2008 Echuca College Talent Show

Paramount Cinema and Performing Arts Centre
Thursday the 4th of September
Anyone from the College can enter. So get an act together because auditions commence at the start of term 3.

VCAL Trivia Night

We are extremely excited to be working on our next fundraiser – a TRIVIA NIGHT being held to raise money for the Beacon Foundation. The details are as follows;

When: Friday, 25th July 2008 (Term 3)
Where: Echuca Workers and Services Club, Annesley Street
Time: 7pm – 10pm
Cost: $10 before (from Crofton Street) or $15 at the door
Theme: Op-Shop Formal – prizes for best dressed

There will be fun, prizes and a variety of trivia questions for all levels of knowledge.

So get a group together and join us for a great night out! Hope to see you there!

EMA CHEQUES

There are still some EMA cheques to be collected from College Drive. Please call in to collect them as soon as possible.
CSSSA FOOTBALL

The Echuca Year 8 football team lead by Luke Sanderson came to Moama with high expectations, but from the first game they found that it wasn’t going to be an easy ride through to Northern Zone. Kyabram came out firing kicking 6 goals to nothing in the first half with their tall timber playing good football. In the second half Echuca rallied to keep Kyabram to only 2 goals and kicked 2 of their own to finish off a tough encounter. Against Rochester the boys started to play some team football and put their best performance on show beating Rochester by 5 goals. Best players for the day where Kenny Gamble, Rhys Leetham, Marcus Roberts, Mitch McMullan and Luke Sanderson.

The Intermediate team faced off against our old rivals Rochester. In what was meant to be a tight contest Rochy jumped out of the blocks to lead 5.3.33 to 2.0.12 at half time. The boys pulled the game plan together, managing to claw their way back into the match. Jagger Warde lead by example with his attack on the ball, and a great solo effort by Matt Wilson to put a smother on in Rochy’s forward 50, surely saving a goal. The pressure on the ball was enormous with great tackling from the whole team. Time was the enemy though, cutting the boys short of their glory. Final Score: EC 6.2.38 to RSC 8.5.53. Goal Scorers. Daniel Edwards, 2, Ryan Hon, Daniel Newton, Dylan Sargent, Ricki Waters.

The final match of the day was against Kyabram. The boys were confident going into this match after a good last half effort over Rochy. They didn’t want to come home without a win. The first half was superb. Great running and defensive pressure caused the score line at half time to be EC 6.4.34 to KY 1.2.8. The second half was just as dominate. They wasted many scoring opportunities with inaccurate kicking, but none the less the score line at half time to be EC 6.4.34 to KY 1.2.8. The Echuca football team lead by Luke Sanderson won against Rochy by 5 goals. Best players for the day where Jagger Warde, Ryan Hon, Ricki Waters.

Best Players on the day were Josh Nathan, Dylan Sargent, Jagger Warde, Ryan Hon, Ricki Waters and Charles Oldham.

STUDENT WELL BEING

Paul Hon and I visited Tirkandi inaburra and were impressed with the program offered. Tirkandi inaburra which targets 12 to 15 year old Koori boys, is a fully self contained facility located between the townships Coleambally and Darlington Point in NSW the student attends for one term usually. So far 123 boys have been through the program with 49 having graduated. It is a very visual program which works on social development, growth as an individual, fitting in with peers, team building, leadership, cultural skills, some of the basics in literacy and numeracy as well as fantastic rewards for students who stand out and do well. It finishes with a very structured program to re-integrate the students back into their school and community. It is hoped that we may enrol some of our students in the future in this worthwhile program.

Planning for the Year 10 Community Arts Drug Awareness Day- Wednesday Sept 10th is well on the way. The whole day program is being organised with input from many community people. The program includes many workshops with the focus on raising the awareness of Alcohol and Drugs in our Community.

The Save a Mate program will be presented to a second group of Year 9 students on Friday June 20th and I would like to acknowledge the Schools Focused Youth Service for financially supporting the delivery of the program and the organisation of Paul Challis and his Year 9 team.

Finally the Welfare team is fortunate to be given the opportunity for an in-service in the final week of the term to organise priorities and set in place action plans to address the major Wellbeing issues of our College.

Paul Leach
Student Wellbeing Team Leader

WHAT IS AN ALLERGY?

The immune system reacts to something (allergens/triggers) in the environment, which are usually harmless, eg food proteins, pollen, dust mite

Allergens/triggers can be ingested, inhaled, injected, or placed on the skin. Symptoms may be localized or generalized, and range from mild to severe.

WHAT IS ANAPHYLAXIS?

Anaphylaxis is the most severe form of generalized allergic reaction, effecting breathing and/or circulation. It is a potentially life-threatening condition and in those at risk, the Doctor usually prescribes an Epipen® Auto-Injector which is a device for giving a single dose of adrenaline for emergency treatment of anaphylaxis. This comes with an ASCIA Action Plan for Anaphylaxis which should be completed by the prescribing Doctor and passed onto the school by the parents.

It is the Parent’s responsibility to inform the school regarding their child’s health needs upon enrollment or diagnosis and provide a written individualized Action Plan signed by a medical practitioner.

Cheers!
Denise
